

SAMSUNG

Security gets smarter

SHS-3120

01 Powerful Security

Enhanced security

Physical jolts, unauthorized user access code or cards activate the alarm

Electro Static Discharge (E.S.D.) prevention

Circuit board protects from the damages incurred from a high voltage surge

Weather Resistant

Suitable for indoor or outdoor

Multi-leveled security system

2 random numbers appear before you enter the user access code in order to stop copycat entries and prevent fingerprint tracing.

Press the wake-up button

Press the displayed numbers in any order

Keypad will display all numbers

Enter your user access code

02 User-friendly Accessibility

User Access Code

RFID Card

Key Tag

* Capacity : 70 (user access code, RFID card, key tag)

03 Convenience

Keypad Volume Control

Volume adjustable (4 levels including mute)

Low battery Warning Signal

A "beep" sound during door access will alert you to replace batteries.
